

# Ready2Talk

The vehicle integration in today's OEM stereos means replacing it with a Radio / PA and hand mic is often no longer an option. The laws have changed, your expectations have definitely changed, so why not change the PA systems that you use.

Ready2Talk is the only company that can answer ANY request... for ANY vehicle.

## Not sure which PA is right for you?

### Ask yourself these 4 simple questions

#### 1. Is your Van/Bus being used for Transportation or Tourism?

##### Transportation

Use a PA 62  
and a PTT hand mic

##### Tourism

Use a PA 62 or a PA 64  
and a wired headset

#### 2. If a Tour Operator, do you ever want to have 2 x mics, or to play music while on tour?

##### No

Use a PA 62  
It has 1 x mic socket and the music goes away 100% when the mic is on

##### Yes

Use a PA 64  
Unique to the PA 64, it has variable music muting and 2 x mic inputs so you have a 2-way intercom or offer karaoke tours

#### 3. Does the State / Province where the Van/Bus is being delivered, have a Distracted Driving law?

##### No

Use a PA 62 and a hand mic  
Because in most cases the PA is used only when stopped for announcements, but a headset is still safer

##### Yes

Use a PA 62 or PA 64  
Use a wired or wireless headset so your legally compliant and everyone is safe!

#### 4. Does Van/Bus come with an OEM or aftermarket stereo?

##### OEM

Use a one of our Ford, GM, ProMaster, Sprinter Installation T Harnesses.  
**Makes the installation Plug and Play without wire cutting**

##### Aftermarket

The PA 62 or PA 64 can connect to ANY aftermarket stereo using the included cables and instructions.  
**For REI VR6200, VR5650 and Jensen JHD1635, use our TH ISO T Harness**

## **The benefits of using *Ready2Talk***

It's a new way of thinking. Just ask yourself these 4 simple questions it will always ensure you end up with the right PA and mic for your needs

All *Ready2Talk* PA's and mics use the same plugs, so if you decide to upgrade from a PA 62 to a PA 64, or you want a wireless mic... no problem, just plug is in.

### **What if the vehicle comes with a factory installed PA and hand mic?**

If your shiny new bus comes with a factory installed REI 710701 PA box and a hand mic, no problem.

With our REI Upgrade Adaptor kit, you can unplug the basic REI PA and plug in a *Ready2Talk* PA using the same wiring, in seconds! If it comes with a REI or Jensen stereo and a hand mic, use our TH ISO T Harness and plug in a PA 62 or PA 64, then upgrade to a headset mic in minutes! Now you're on the sunny side of the street.

### **Wireless microphones**

Today it can be all about wireless. Wireless is used everywhere, why not in your customer's van or bus? Where wireless was previously unavailable, our HS BT4 wireless headset or HM BT4 wireless hand mic just plugs into any of our PA boxes.

### **Motorcoaches**

You may be new to *Ready2Talk* and looking for a PA system for your van or minibus, but you also might have motorcoaches in your fleet too? Our goal is to be your one supplier for all your PA and microphone needs from vans, cutaways, trolleys, trams and motorcoaches. Consistency is key.

Our MB 6 series of microphone adaptor boxes connect seamlessly to the motorcoach's factory installed entertainment system. Once the MB 6 is connected, now you can use all our reasonable priced *Ready2Talk* mics from hand mics to headsets, wired and wireless. The MB 6 boxes just plug in and now you have one mic standard for all the vehicles in your fleet.

### **Wrapping up**

We think we have everything you may need for your fleet of 1 or 1000, no matter what vehicles you use. If you're not 100% clear, just give us a call and we'd be happy to answer all your questions. Thanks, and we look forward to having you on board too.

The *Ready2Talk* Team
